

# DDPI-MK2

# Data of the Week

April 23, 2021

# Notes

- **Friday, April 9**, evening: Both eye trackers running on a single board at 550 samples/s
- **Wednesday, April 21** at 2pm: Left dichroic and light source re-aligned
- Showing worst trace recorded from each subject
- Excluding data with bad autocalibration

# Data Availability

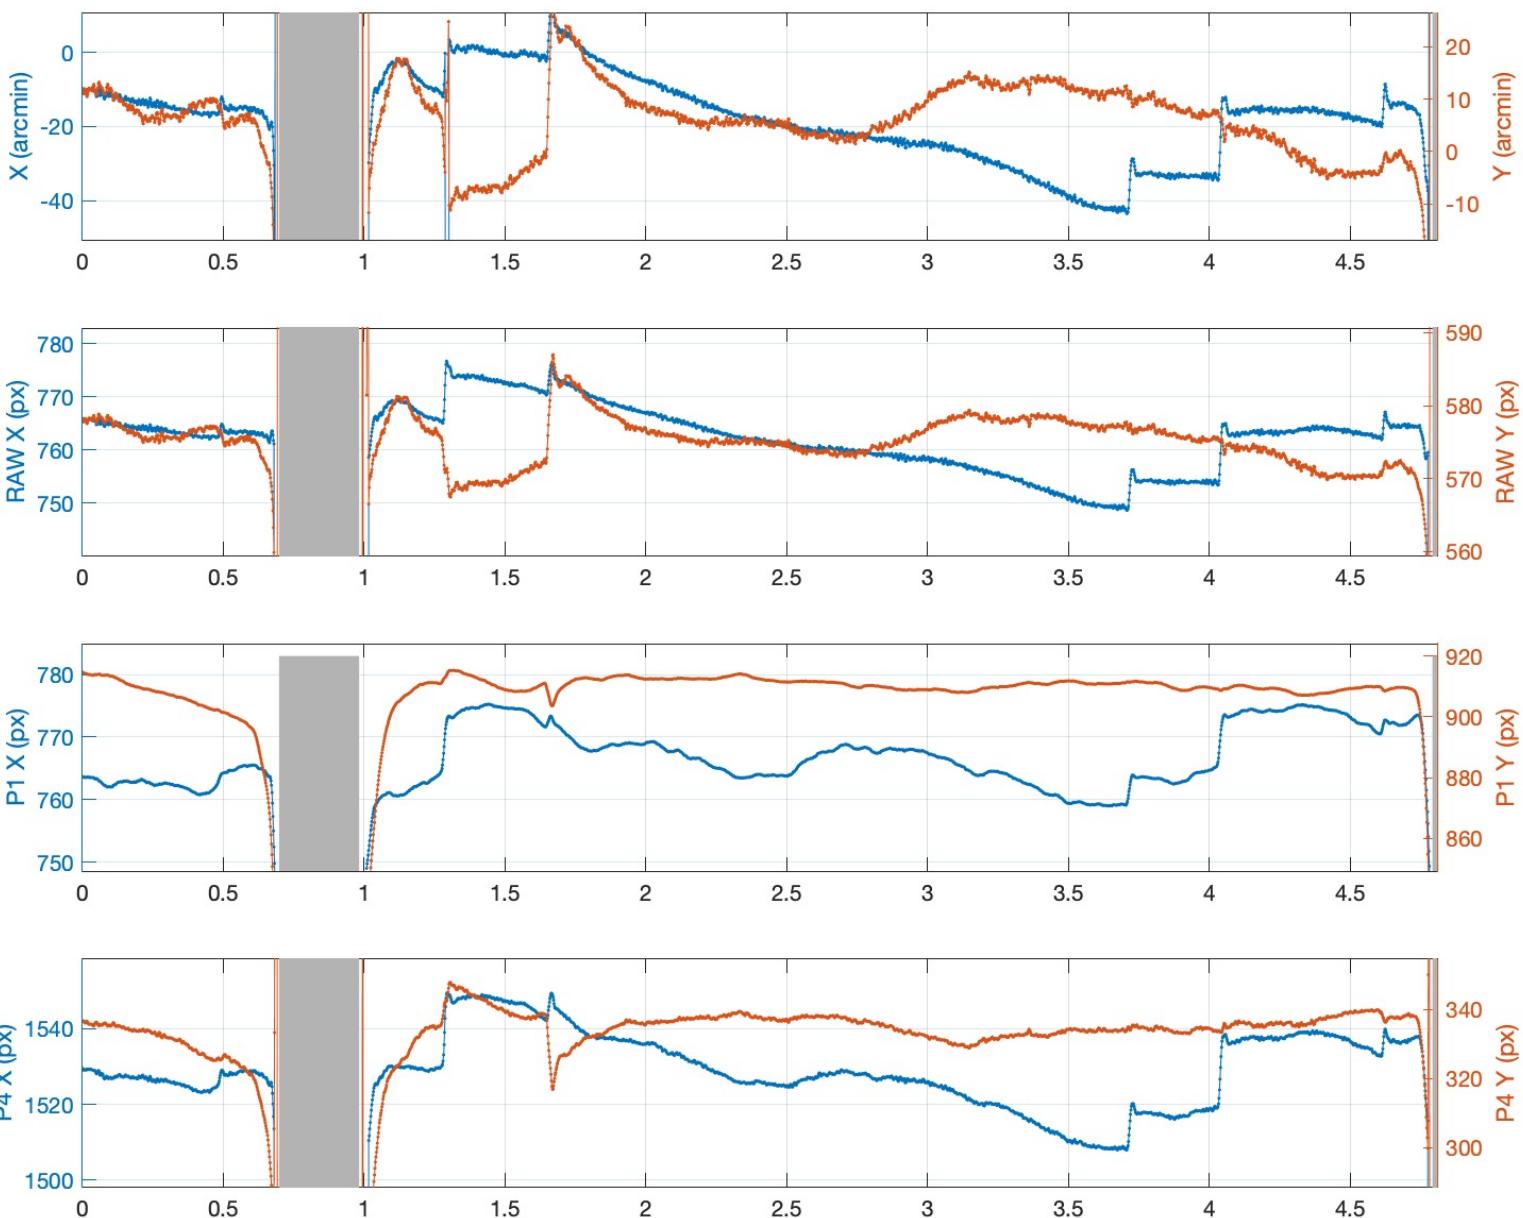

- Exported eis mat files are available on box
- **3D Vernier (binocular)**
  - APLab-Projects/Box/Binocular/Vernier/Data
- **Corrugations (binocular)**
  - APLab-Projects/Box/Binocular/CorrugationDiscrimination/Data/DDPI-MK2
- **Microsaccadic Suppression (monocular)**
  - APLab-Projects/Box/Saccades/MicrosaccadicSuppressionn/Data-Revision1

# A164 – 3D Vernier -- Binocular

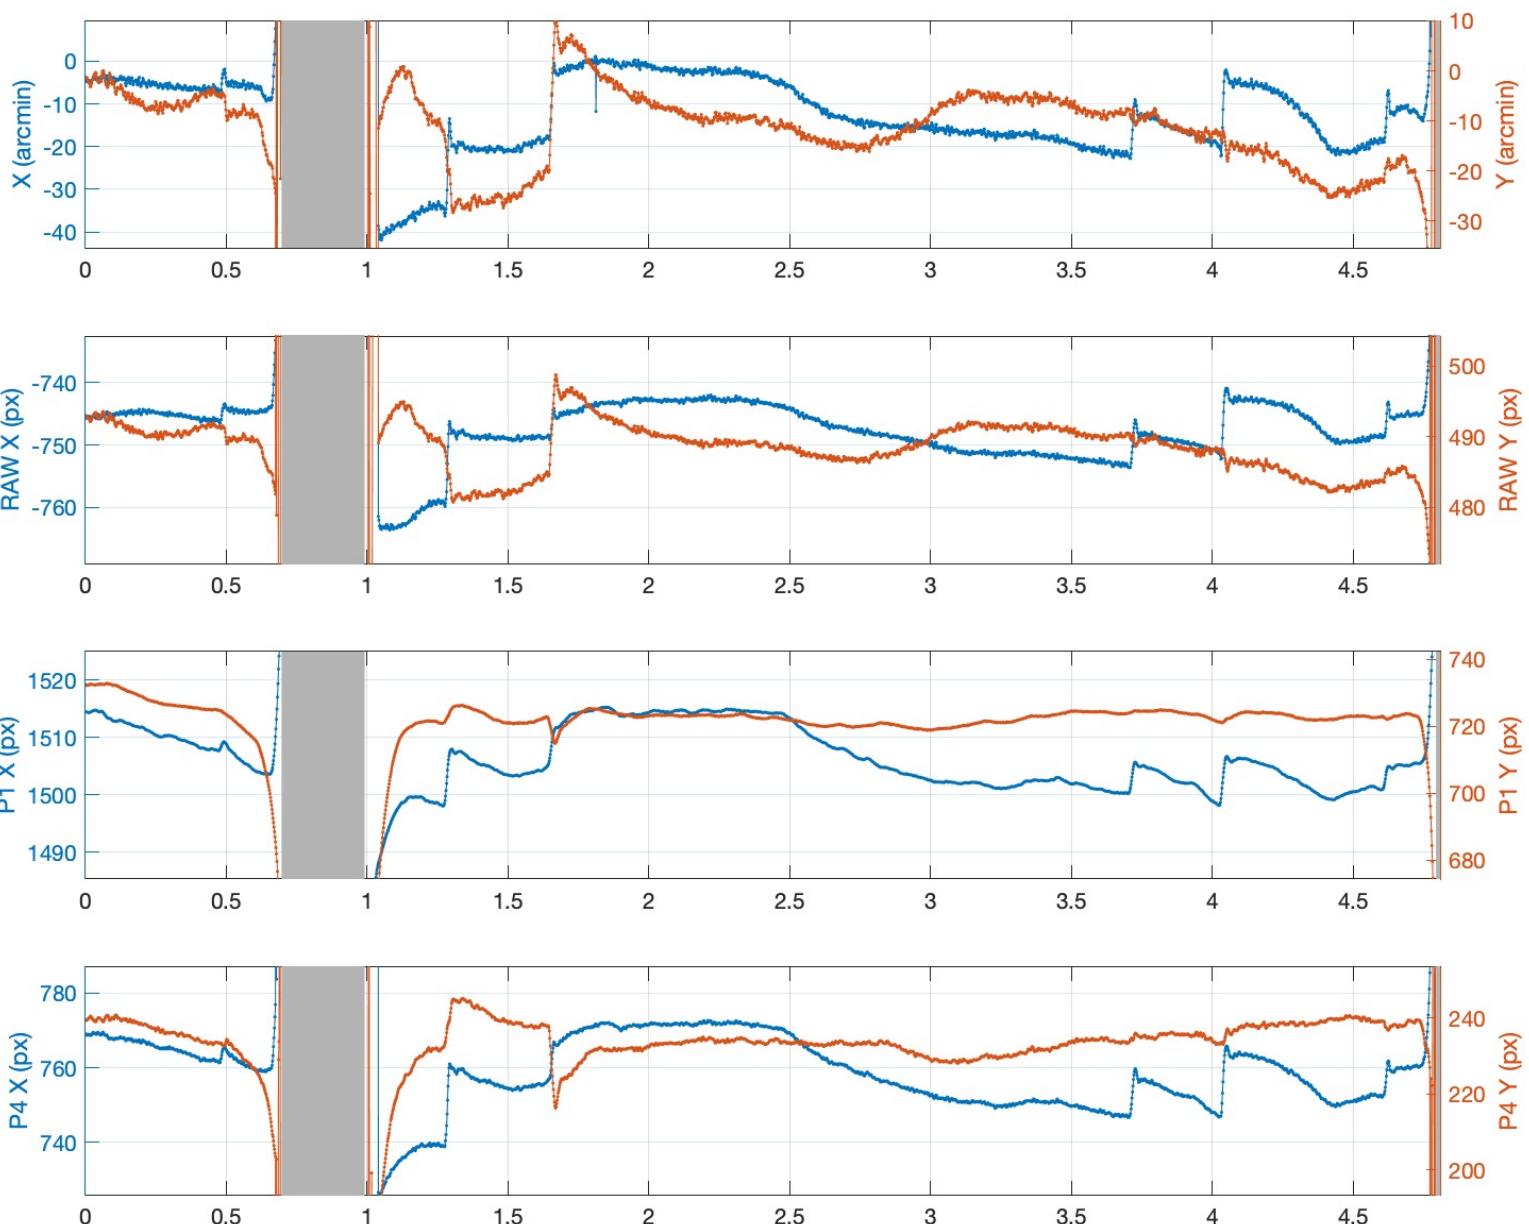

- Experimenter: FM
- April 19
- Could not find a bad tracking example from latest session

3D Vernier  
A164  
April 19  
RIGHT EYE

A164\_1.3 (trial 613): 2021-04-19\_A164/2021-04-19\_A164\_vernier2.mat --- RIGHT EYE

3D Vernier  
A164  
April 19  
LEFT EYE

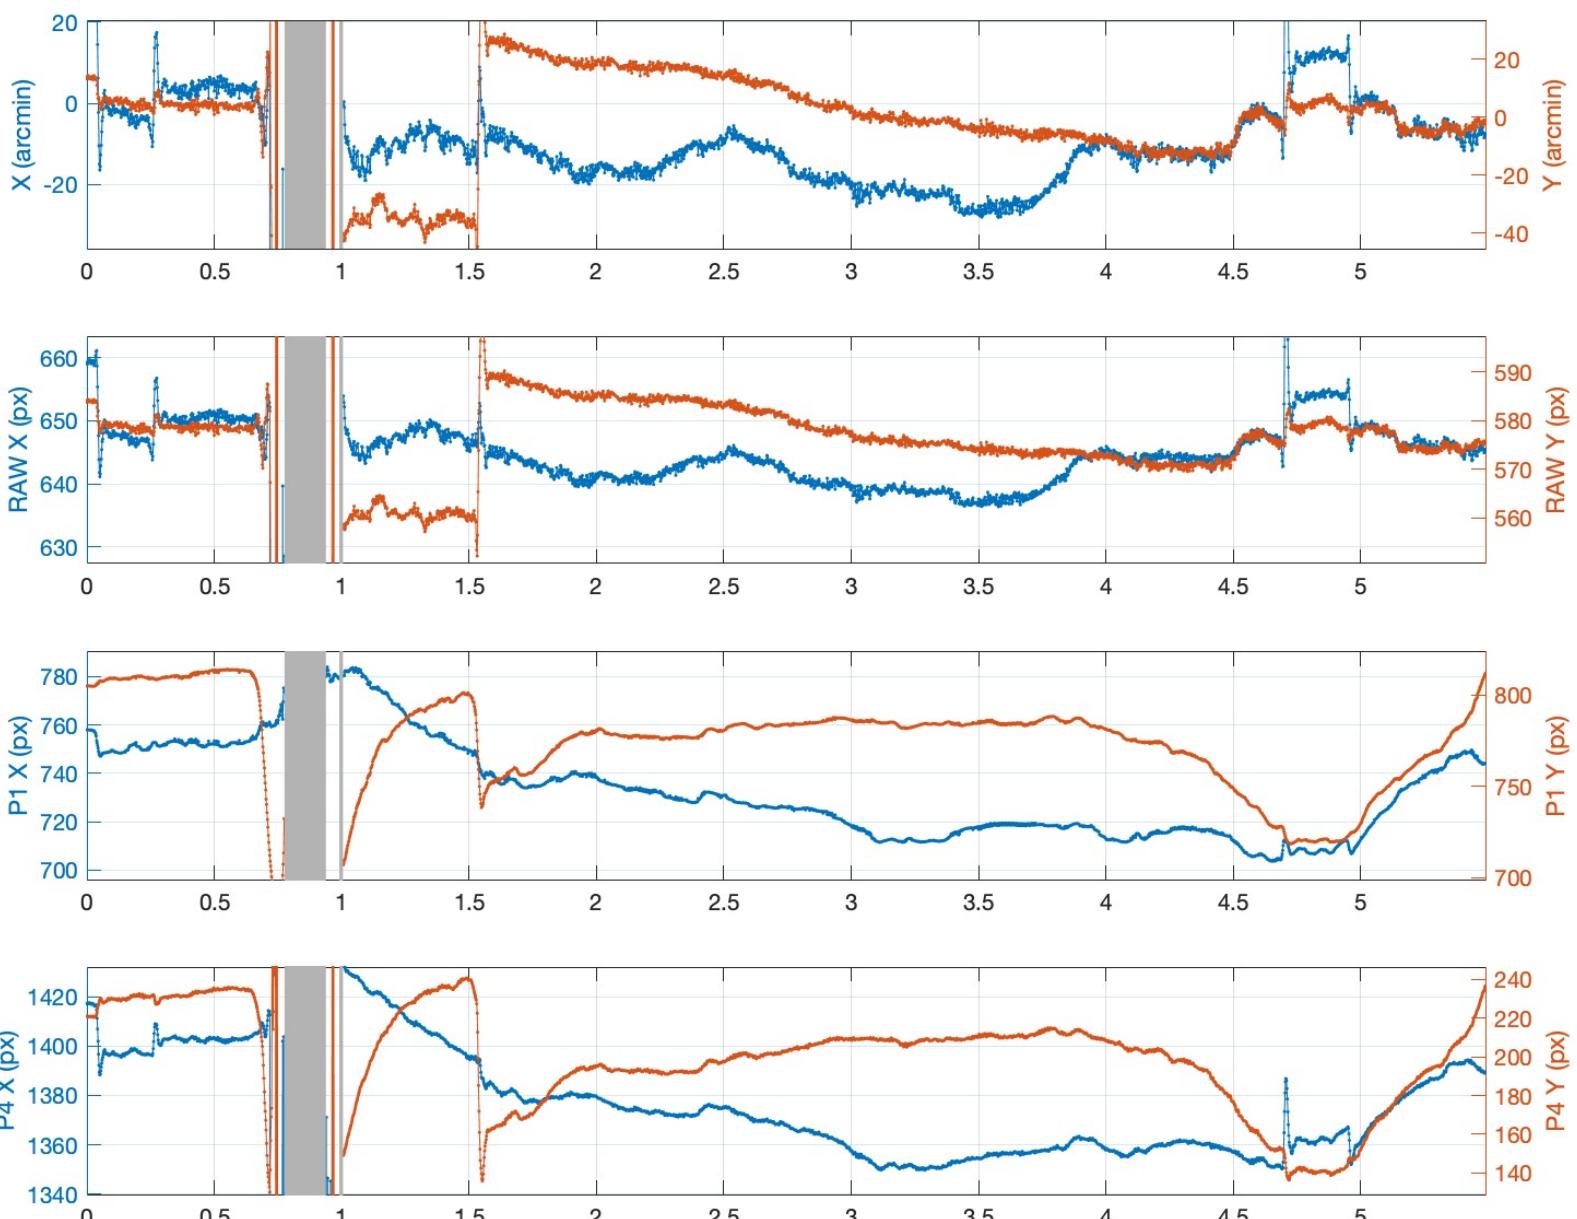

# A124 -- 3D Vernier -- Binocular

- Experimenters: FM
- April 21
- P4 jumps (in about 5 of 120 trials)

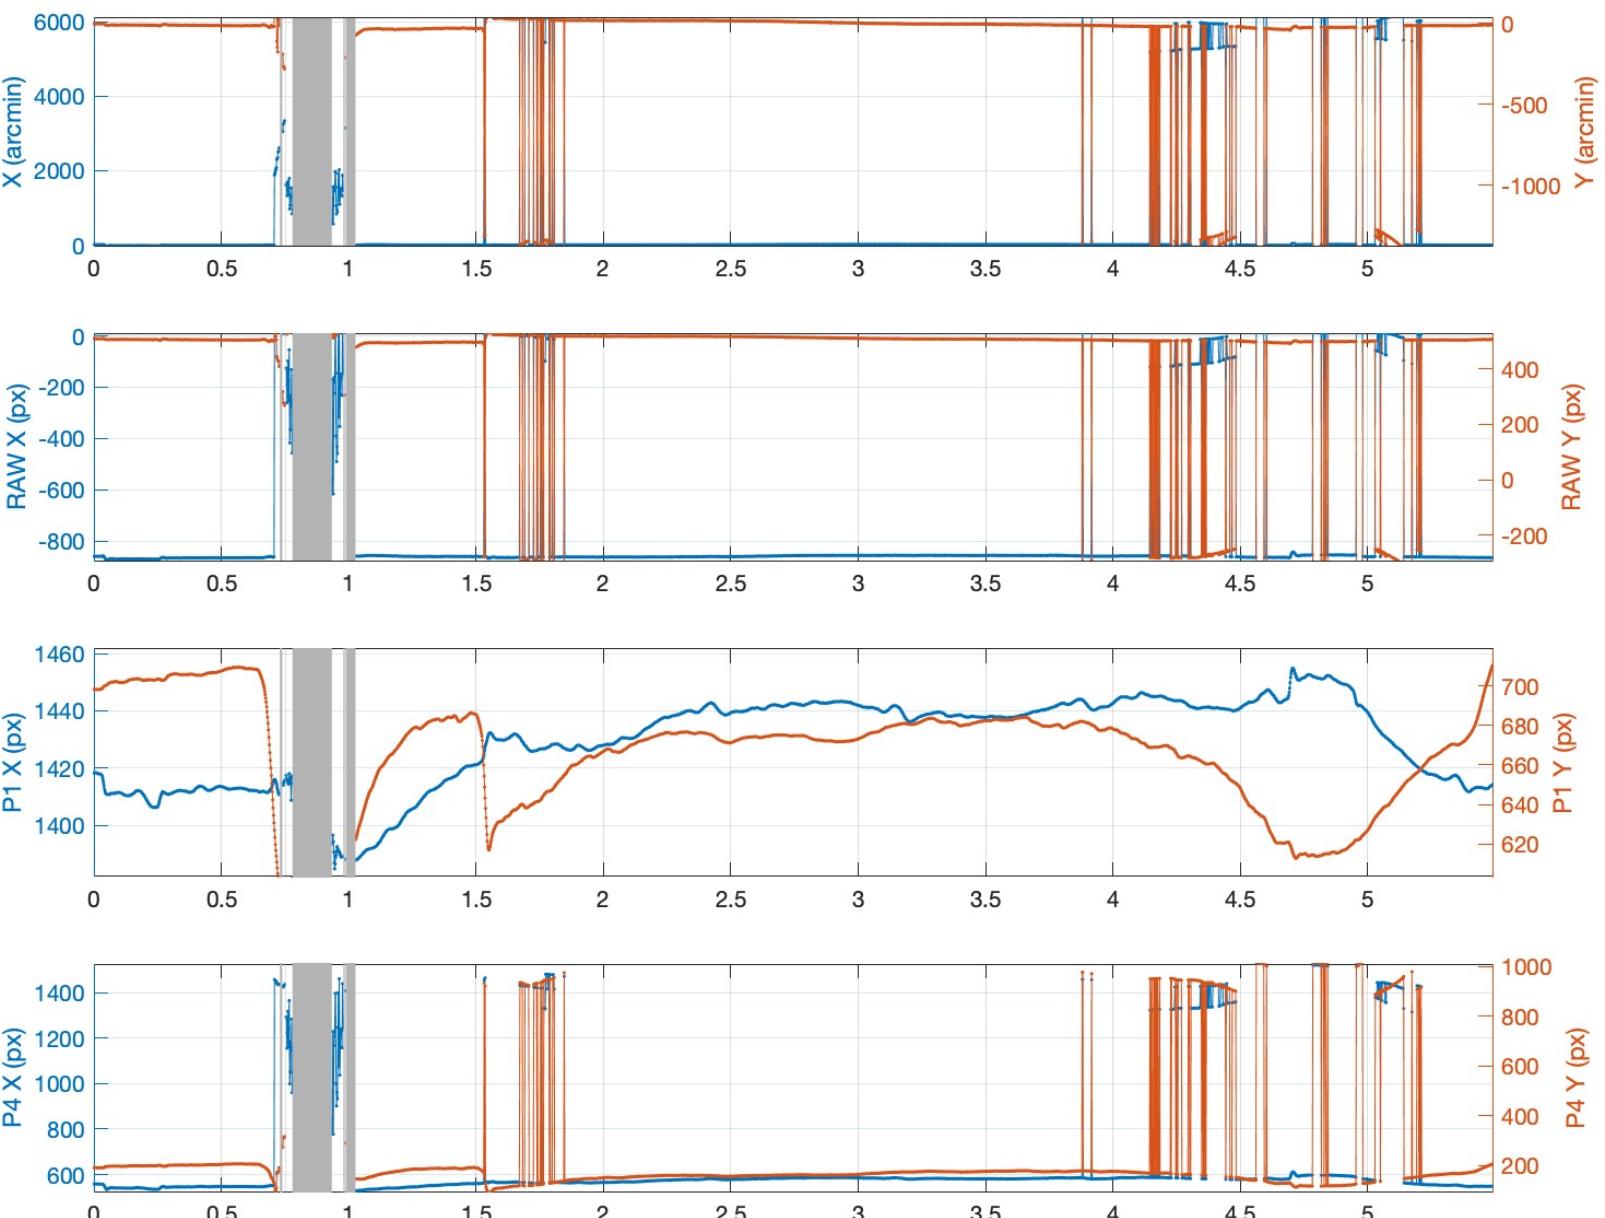

3D Vernier  
A124  
April 21  
RIGHT EYE

A124\_1.3 (trial 600): 2021-04-21\_A124/2021-04-21\_A124\_vernier1.mat --- RIGHT EYE

3D Vernier  
A124  
April 21  
LEFT EYE

A124\_1.3 (trial 600): 2021-04-21\_A124/2021-04-21\_A124\_vernier1.mat --- LEFT EYE

# A0HL – Microsaccadic Suppression - Monocular

- Experimenter: MC / JI
- April 20 (before realignment)
  - difficulty finding sharp P4
  - P4 jumped often
- April 21 (after realignment)
  - P4 jumped in 1-2 trials out of 200
- Left eye tracking only

# MS Suppression

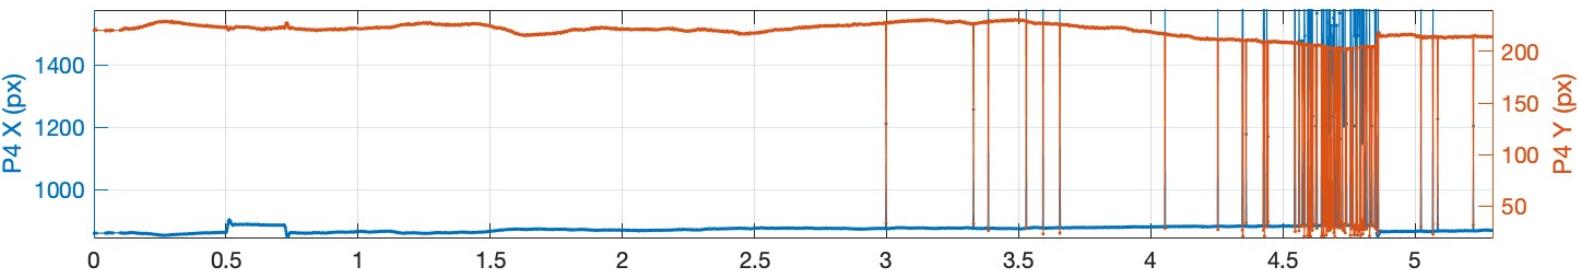

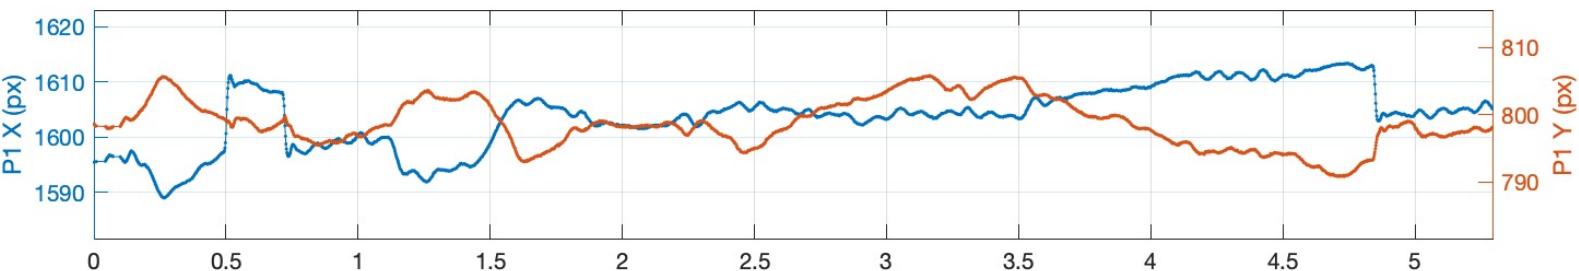

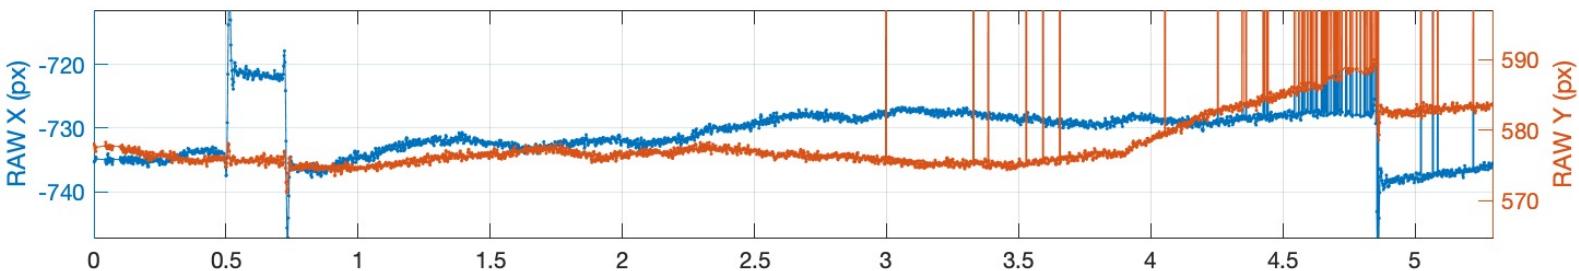

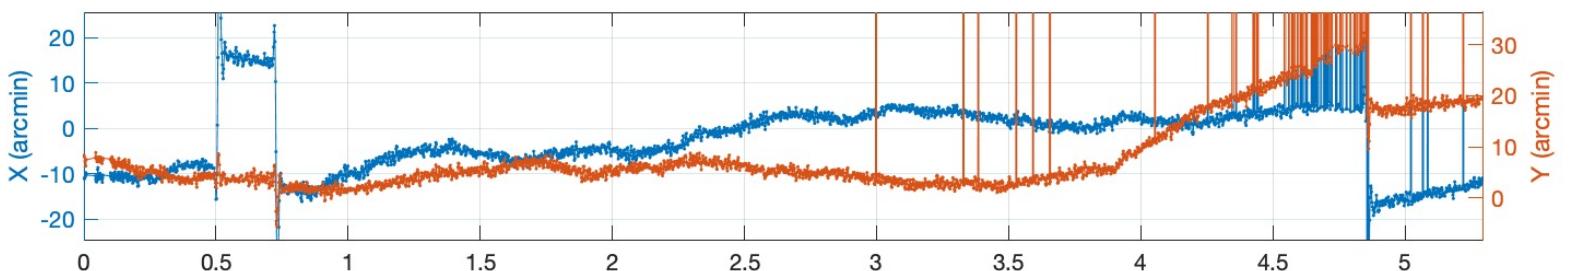

A0HL

April 20

(before realignment)

LEFT EYE

A0HL (trial 335): 2021-04-20\_HL/2021-04-20\_HL\_ms-suppression2.mat --- LEFT EYE

# MS Suppression

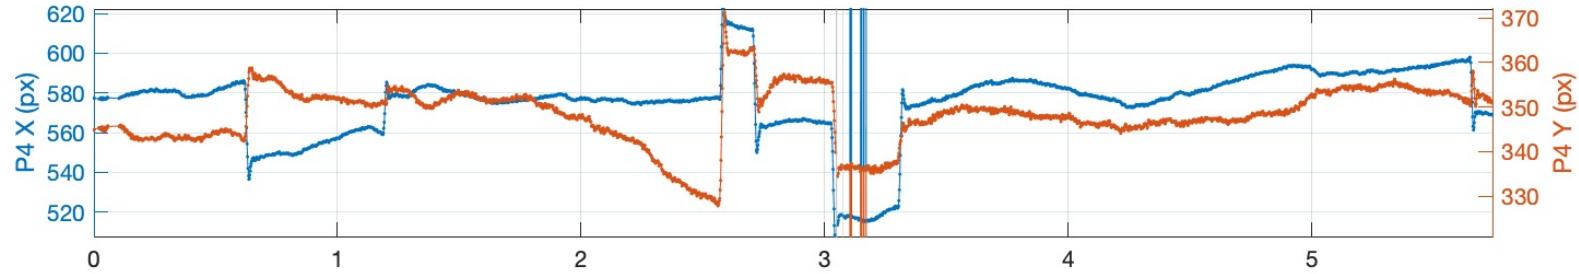

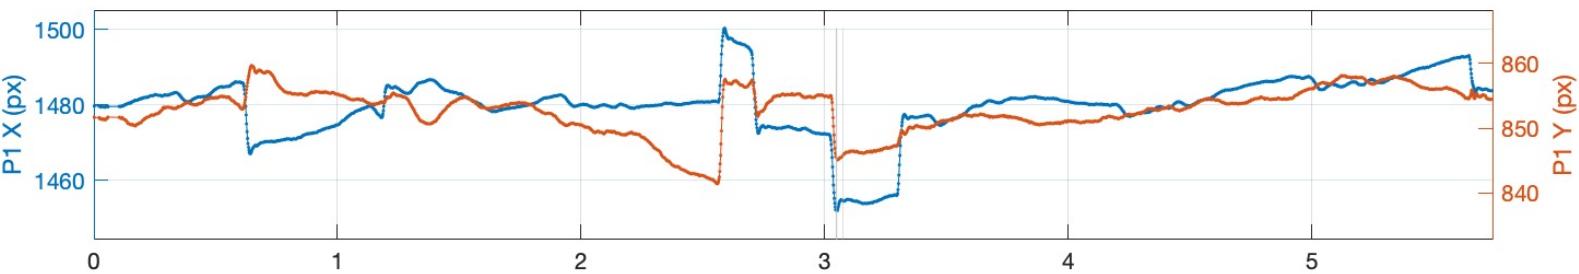

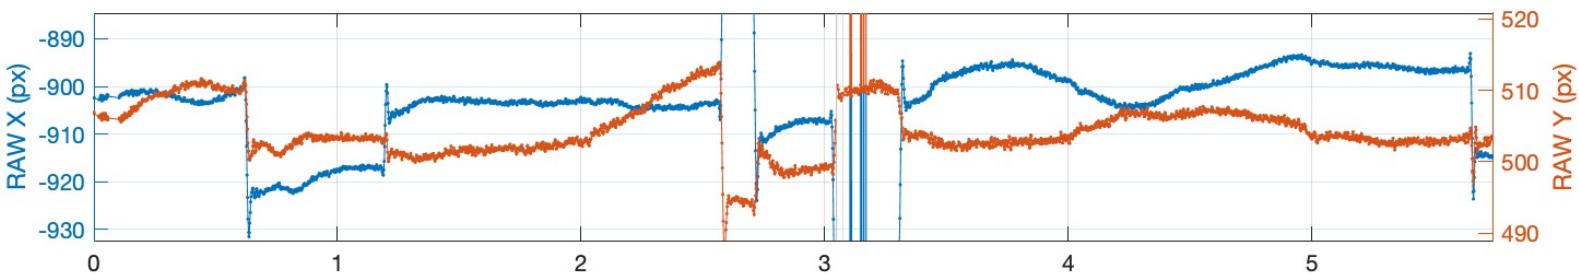

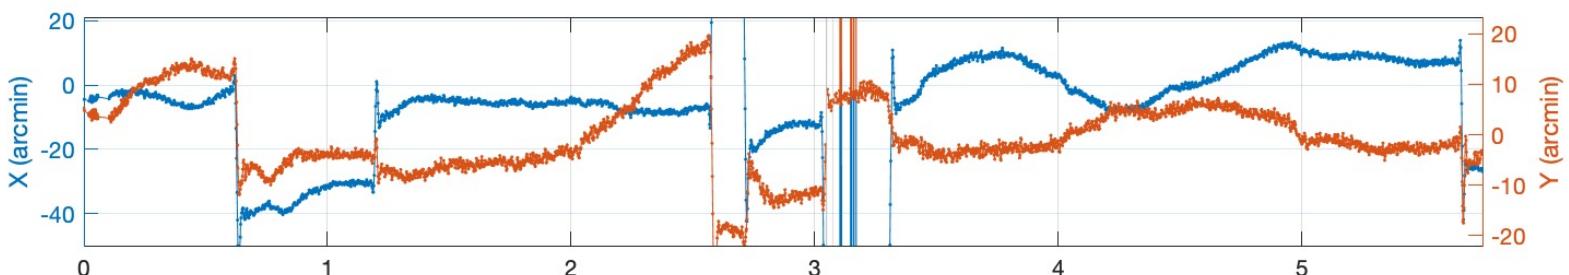

AOHL

April 21

(after realignment)

LEFT EYE

A0HL (trial 506): 2021-04-21\_HI/2021-04-21\_HL\_ms-suppression3.mat --- LEFT EYE

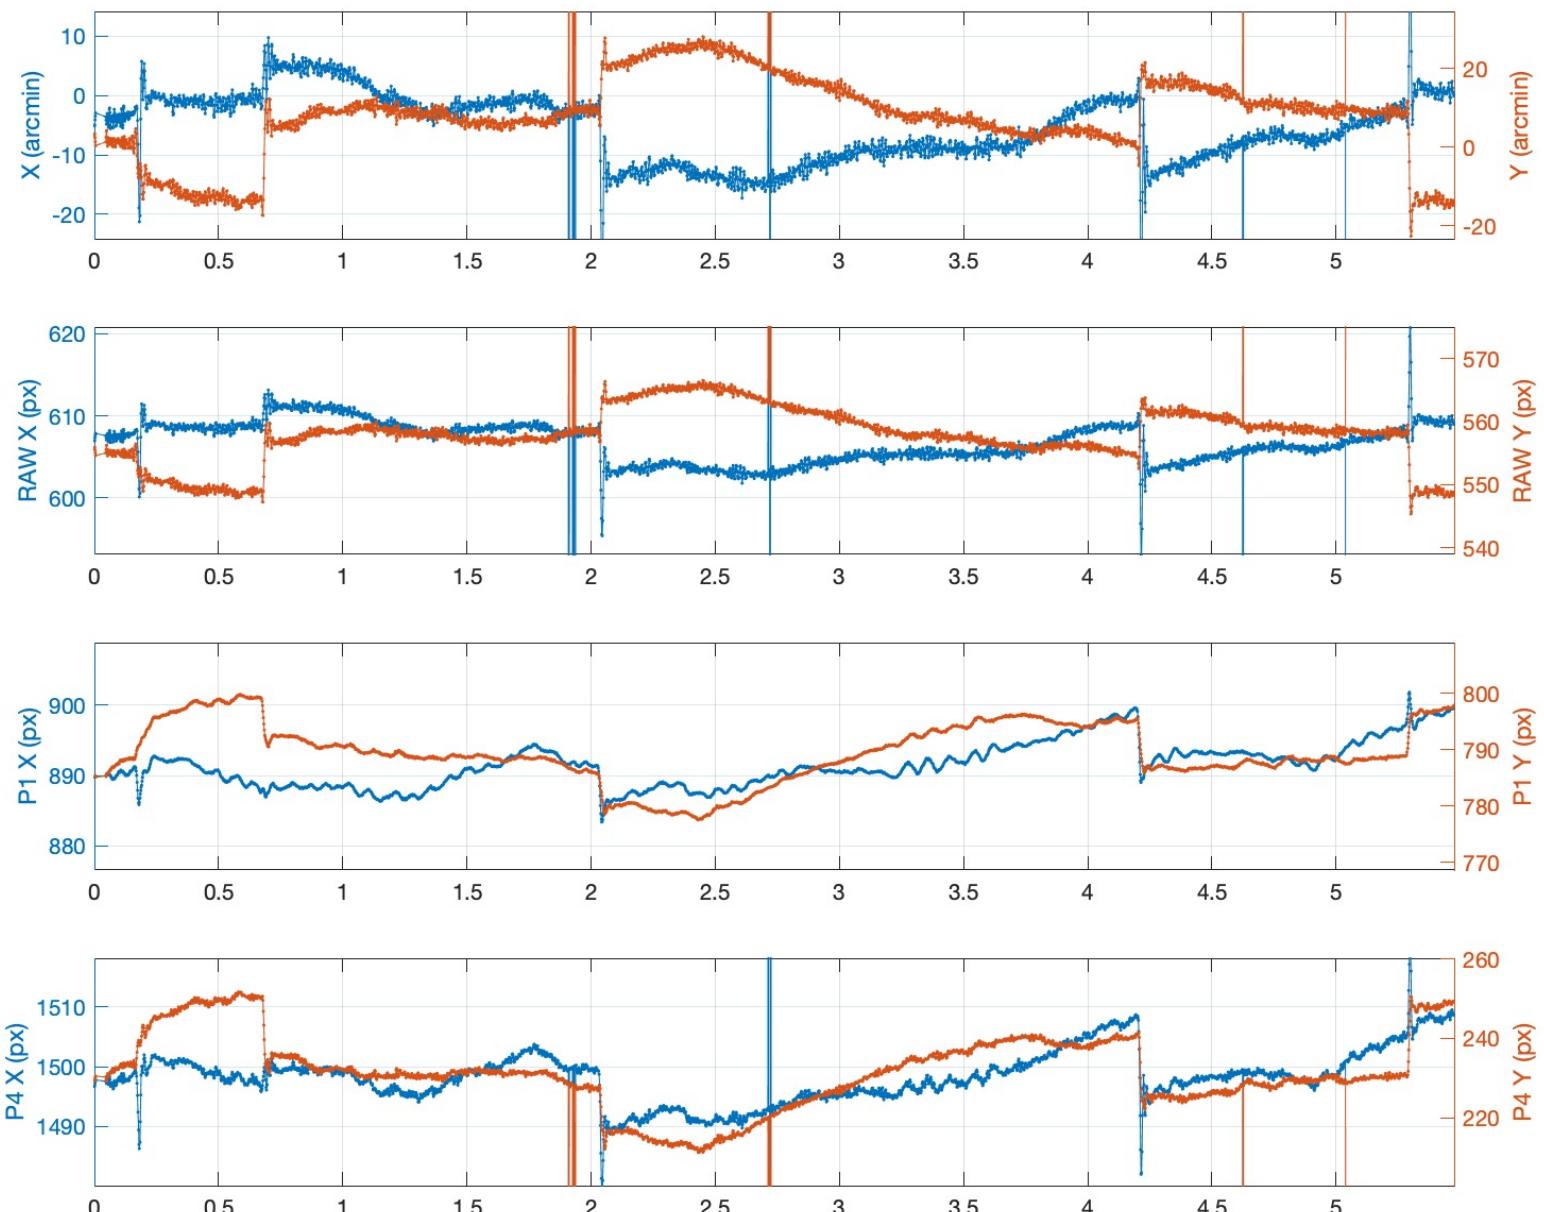

# AOJI – Microsaccadic Suppression -- Monocular

- Experimenter: MC
- April 21
- Right eye tracking only
- 1-2 trials out of 250 with spikes

MS Suppression  
AOJI  
April 21  
RIGHT EYE

A024 (trial 1995): 2021-04-21\_JI/2021-04-21\_JI\_ms-suppression3.mat --- RIGHT EYE

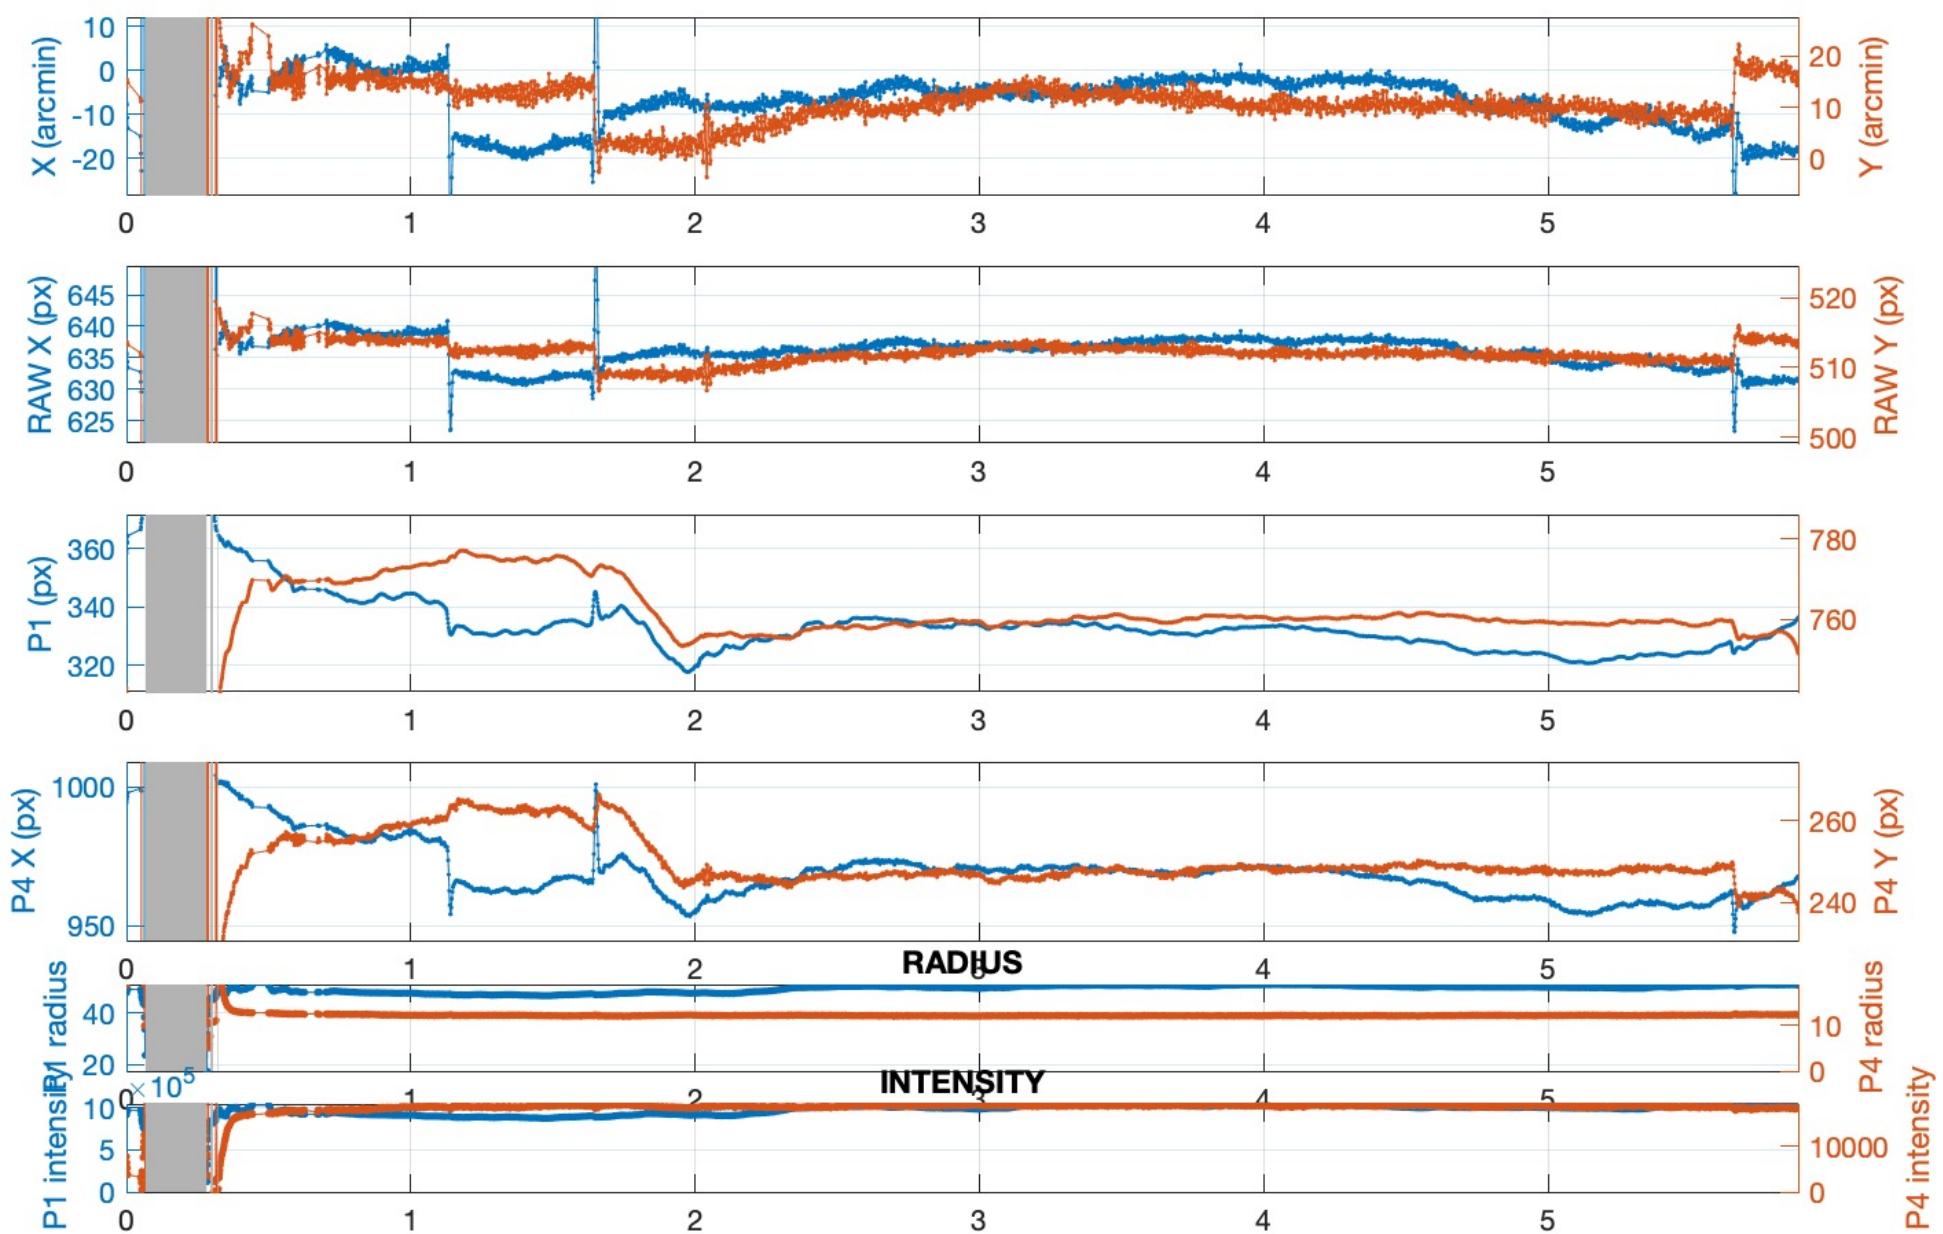

# A0BY -- Corrugations-- Binocular

- Experimenters: FM, EA
- April 22
- Large P4 oscillation in both eyes after head movement
- <10 trials with spikes in 1 hour session

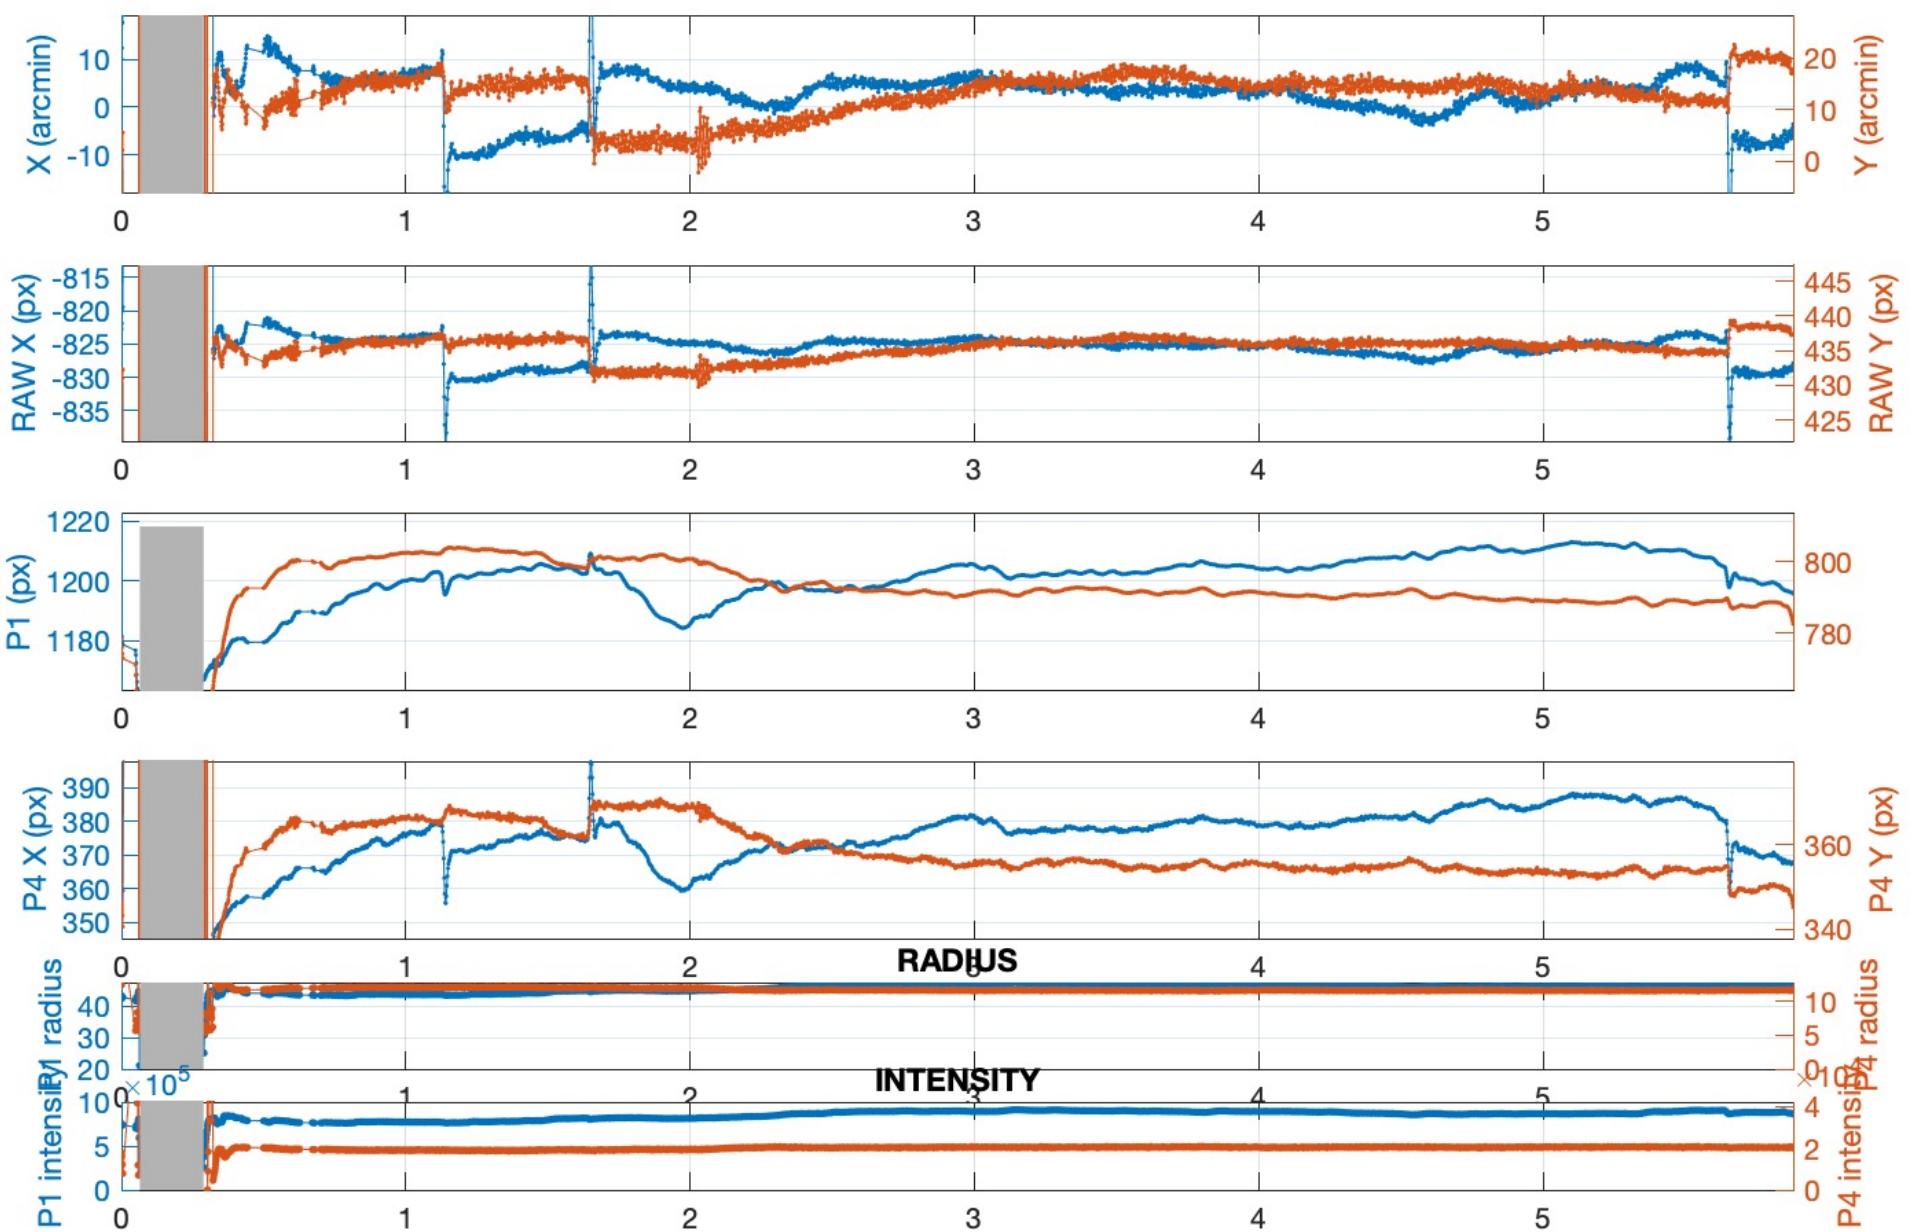

Corrugations  
AOBY  
April 22  
RIGHT EYE

A066 (trial 156): 2021-04-22\_A066/2021-04-22\_A066\_corrugation3.mat --- RIGHT EYE

Corrugations  
AOBY  
April 22  
LEFT EYE

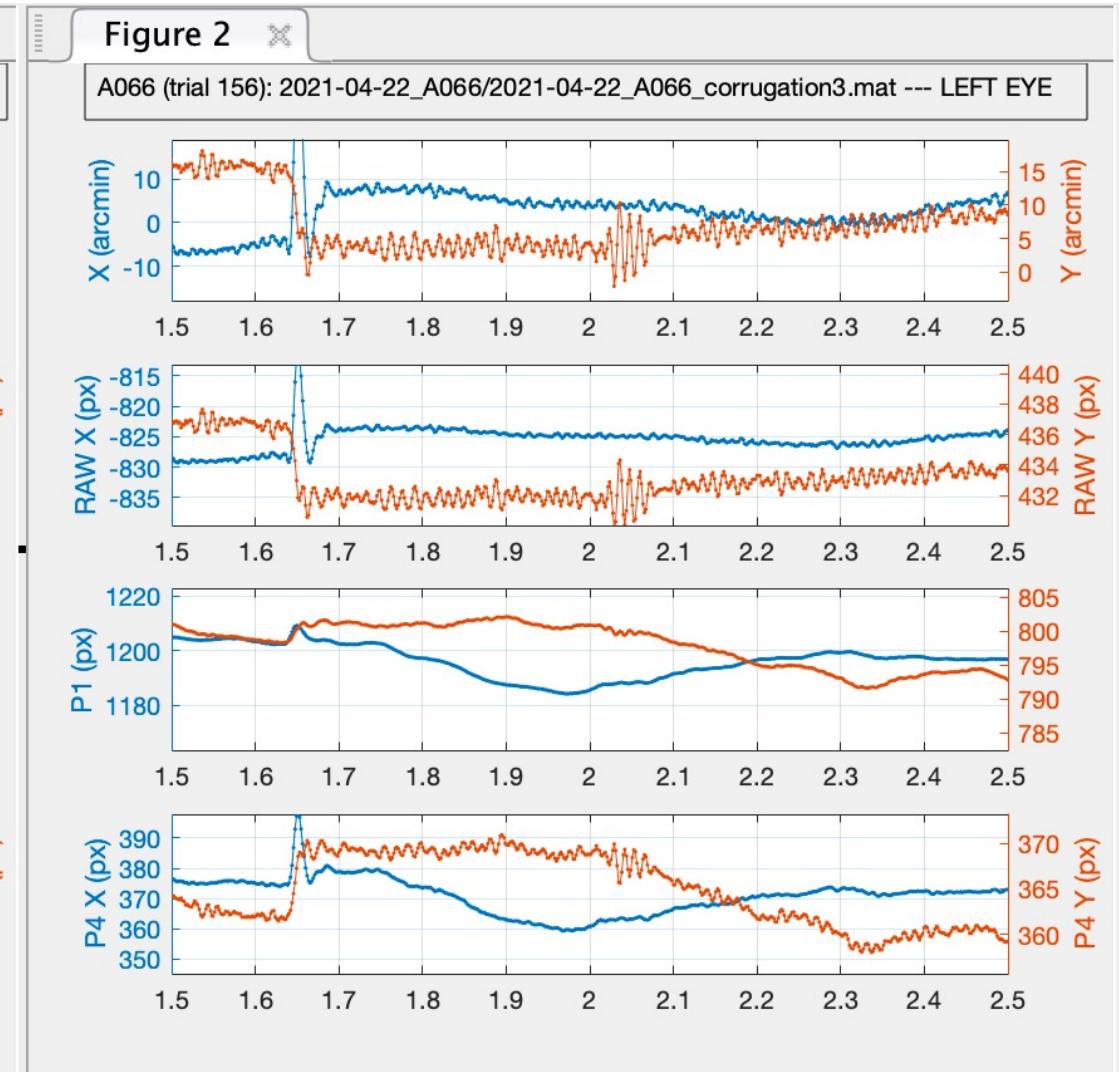

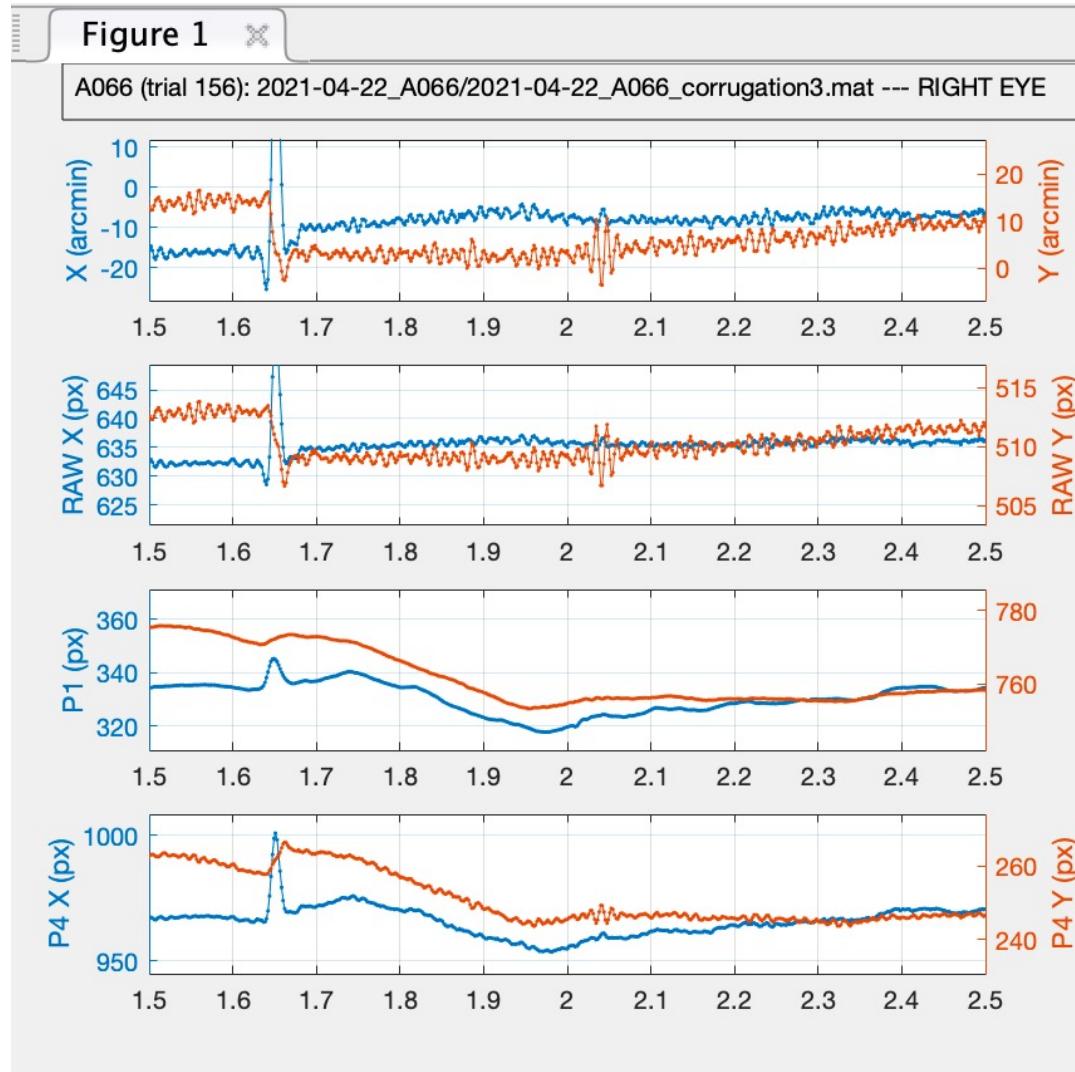

A066 (trial 156): 2021-04-22\_A066/2021-04-22\_A066\_corrugation3.mat --- LEFT EYE

# Corrugations

## A066

### April 22

# A152 – Corrugations -- Binocular

- Experimenter: FM
- April 22
- Could not find a bad tracking example from latest session

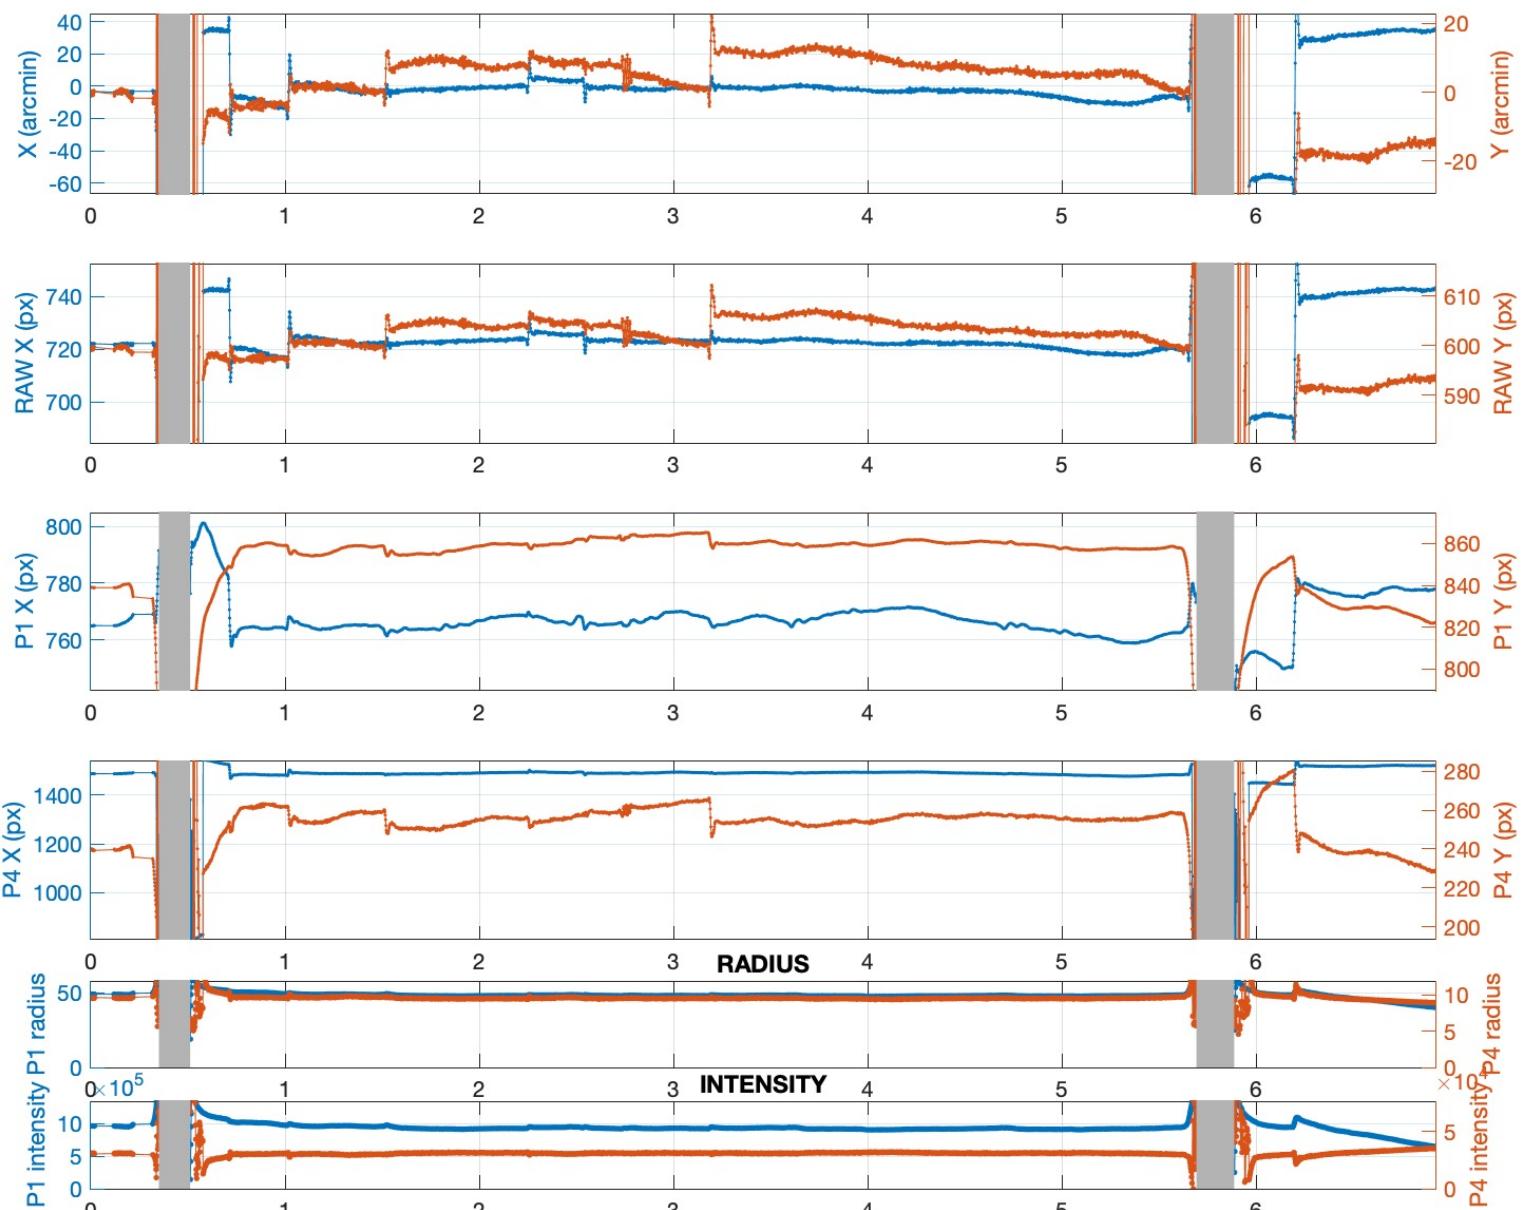

# Corrugations

## A152

### April 22

#### RIGHT EYE

A152 (trial 160): 2021-04-22\_A152/2021-04-22\_A152\_corrugation1.mat --- RIGHT EYE

# Corrugations

## A152

### April 22

#### LEFT EYE

A152 (trial 168): 2021-04-22\_A152/2021-04-22\_A152\_corrugation1.mat --- LEFT EYE
